**Subject:** SH93-97 Issue 4

Canadian STC SH93-97 for the D350-602 Heli-Utility-Pod has finally been updated to add the AS 355 models. The new paperwork also incorporates all outstanding service instructions on this product.

Now that the paperwork has been updated, we will work on getting the Danish approval updated to include the AS 355 models and the new paperwork through EASA.

Kim will get the electronic files updated shortly.

Kim,  
I will send the signed data package back to you tomorrow. Please initiate the ECN process and make applications to update the  
FAA and Danish approvals. Make sure the PDS gets updated accordingly.
